

REMARKS

A restriction requirement has been entered in the present application, restricting the claims of this application to the following groups:

Group I Claims 1-17 and 89-112, drawn to research the captured items stored in the archive subsystem, which is classified under 707, subclass 204; and

Group II Claims 18-28 and 33-88, drawn to creating multiple data structure for storing captured items, which is classified in Class 707, subclass 100.

Applicant notes that the Examiner has placed claims 90-112 in the same group as claim 89. Claims 90-112, however, do not depend on claim 89; rather, claims 90-112 depend on claim 18, which has been placed in Group II. Applicant, therefore, traverses the restriction requirement.

Applicant, however, has amended claim 18 so that claim 18, and claims 19-28 and 33-88 depend on claim 1. The amendment should, therefore, obviate the restriction requirement.

To the extent that Applicant's amendment of claim 18 does not obviate the restriction requirement, Applicant elects Group I claims.

It is respectfully submitted that the claims as now pending in the present application are in condition for allowance and an early notice of allowance is accordingly solicited. Should the Examiner have any further questions regarding the foregoing response for this application, he is invited and urged to telephone the undersigned attorney.
